

## DigitalDisplay

Introducing the new DigitalDisplay from Evolving Communications. A self-contained, plug and play sign that plays both full motion video and slide shows of still images. This easy to implement signage solution enables you to convey your product and brand through a captivating and cutting edge point of sale presence.

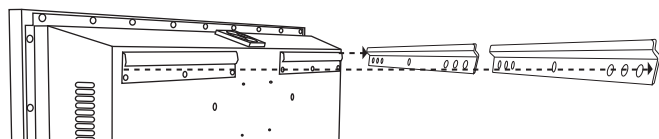

EVOLVING  
COMMUNICATIONS

## DIGITALDISPLAY - 37 INCH

Standard Wall Mount

Standard Enclosure

### DIGITAL SIGNAGE MADE EASY

- Content you create and control
- Full motion video (Mpeg2)
- Slideshows of static images (jpeg)
- Stereo Sound (MP3 and WAV)
- Remote Control

### TAILORED LOOKS

The DigitalDisplay comes with a refined and understated frame. Custom surrounds, enclosures and mounts can be engineered to meet the most demanding requirements.

Content is stored on inexpensive, readily available compact flash cards. Creating content for your DigitalDisplay is as simple as dragging a file from your computer's desktop. There is no complex programming or software to learn. With the DigitalDisplay, you can quickly change content to feature products, specials and themes.

### APPLICATIONS

Because of the picture quality, the ease of changing images and the dynamic nature of this product, the DigitalDisplay is ideal for:

- Hotels
- Bars and Restaurants
- Retail Establishments
- Common Areas
- Reception Areas
- Medical Facilities
- Residences
- Window Displays
